Restoration good for morale

Dear Editor,

I am so thrilled that the efforts to repair the clock at City Hall are going so well. Every time I've been in town since it stopped, I've missed it - standing there so silently, an ever-present reminder of the comparatively hard times our town has gone through in its more recent history. A clock which does not tell the time is quite a useless tool and we shall all be glad to have it going again. Good for the morale!

Please accept my check to be put into the fund to repair the clock.

Sincerely,

Nancy F. Bishop
